**THE PREZ SEZ**

Hi all,

I want to thank everyone for making our Annual Spring Picnic a great success. Even though we had to delay the picnic a day, we had a great turnout and nice weather. The Ergenbrights were great hosts and put a lot of effort into getting their ranch ready for us. A great big THANKS to James & Ann! A great big THANKS also to Colleen and Richard Law for hosting our April meeting!

A couple Saturday's ago we had PIZZA AT PAT'S in Blanchard. A whole passel of our Corvair crazed members showed up to remove Lauren's broken engine that will be repaired and reinstalled later. We had so many Corvair Crazyes that we broke into three groups. Group 1 removed the engine, Group 2 organized Pat's Hoard of his spare parts, and Group 3 stuffed themselves with donuts, pizza & coffee! THANKS PAT!

This month at COFFEE AT KEN'S, we made progress on his SPYDER, We reinstalled his rebuilt front end. John Sargent did a lot of work on his engine with the assistance of Bob Welch. John's engine was fixed enough that he was able to take it home to await installation after his Corvair's paint job is done. We installed my refurbished engine into my '66 Rust Bucket (Cheryl is still rolling her eyes)!

Our next event will be the 4th of JULY FREEDOM FEST PARADE in Bethany. Line up not later than 9:30am. I'll have more info at our meeting. See you all at the meeting.

Hope to see you all at the picnic!

## COCA April 2019 Minutes

The May meeting was held directly after the club picnic at the Ergenbright's ranch on the 18th of May. David Castiaux welcomed the members for this abbreviated meeting and thanked Ann and James for their hospitality.

**Old Business-** The April minutes were reviewed and Larry Duvall made a motion to accept the minutes. The motion was seconded by Liz Capron and the motion carried.

**Treasurer's Report-** Ken Drye gave us the treasurer's report. He reminded everyone that has not renewed their membership, that it is time to do so. Colleen Law made a motion to accept the report as given and the motion was seconded by Pat Silver. The motion carried.

**New Business-** Upcoming Events

**Bethany 4th of July parade-** We have sent in our paper work. Typically we meet at the same location at 9:00 AM.

**CORSA National Convention-** Will be held in Illinois July 23rd through the 27th. Registration forms are available at the CORSA website or in this newsletter.

**Mineral Wells-** Will be held on October 10, 2019 through Sunday the 13th. They have moved the date up one week and now it does not conflict with the Great Plains Roundup. The car show will be held Friday along with a local festival and

the autocross action takes place on Saturday. More information regarding registration can be found in this newsletter.

**Great Plains Roundup-** This year Tulsa is the host and the event will be held in Carthage, Missouri. The date for this event is October 18th through the 20th. Registration information is included in the newsletter

Don't forget coffee at Ken's Sunday and Wednesday mornings.

David Castiaux made a motion to adjourn and that was seconded by Liz Capron, the motion passed and the meeting was adjourned.

Here we are in the middle of JUNE and the weather is not cooperating with us. We all are trying to finish up our winter projects and or help other members to finish theirs.

On that thought.....

I have been working on Janny's '66 Corsa for almost a year now. Stepping back and looking at the process, my observation on this rescue / rebuild is this... Although I am NO Purest (by any stretch of the imagination), I find myself falling or should I say leaning toward many aspects of stock configuration.

So the reason for this Rescue to a true Corvair configuration.

This 66 Corsa was an 1980s INCA club member's car and was in the process of having a Tornado V8 installed, when I saw it in the 90s!

After many years of it sitting and only partially being "done", I had the opportunity to see it at the shop of the builder. I had loaned him a collection of articles many years before (around 1985) so he could research the Tornado swap. I finally contacted the borrower to retrieve my collection of articles.

Showing me the project car, and describing the work that had been done, I found that it was the same, beautiful, 66 Regal Red Corsa, that I had admired when the owner would drive it to club events some years before!

Now.... some of the work included a disc brake front end (S10 Spindles Rotors and Calipers) and the rear suspension had been removed. New, Toro rear control arms had been fabricated. And there it sat... for many more years. Fast forward to 2018 and I had the opportunity to meet a young man named Tony Imig. He had inherited the car and wanted to sell it and a 67 Monza that was located in his garage.

I purchased both cars. Pat Silver offered his trailer to help move the 66 to my house and so the work began.....

Tony helped me move the 67.

The first thing I had to do was to sell the 67. Done! Thanks to Jim Hunter the 67 found a great home. The next thing was to procure the missing pieces of the firewall in preparation to restore the Corvair power train. Tony had tried to cut out the needed pieces but they were too small so..... a trip to the Juna Tuna 2018, at the Kalp shop in Wichita, KS. was in order. Terry pointed me in the direction of a derelict 67 and provided me the power tools to remove all of the firewall I needed. THANKS Terry! Next was preping the car 's sheet metal to accept the "new" firewall panel. Actually the "new" panel had to be massaged as well so as to mate the panel into the hole that was left when the PO's "builder" cut it out to install the TORO drivetrain. As you will see, this was no a straight forward process.

The good thing was, that the brake lines were left in tact, so that was one problem that was easily resolved.

Replacing the firewall and package area had to be done in 3 separate operations. This was necessary so that they could be better fitted and welded in without interference from the other panels. I had to remove some of the old package area in order to weld it in separately. it actually took TWO rear panels to restore the firewall/package area sufficiently! Below, is the upper part of the package area next to the rear window. the spot welds were removed in order to fit it with the lower firewall panel correctly.

Fitting and cutting and fitting again to get the best fit could be before welding. I used CLICOs to hold everything together ! Yes the BFH is there for a reason!

This was just a trial fitting. the upper piece had to go in first.

With it all fitted in and looking good, it was time to weld it in.

I also found some rusted through spots in the rear floor under the seat that will need attention and what better time than NOW to cut out the rust!.

This is the view from the engine compartment showing the back of the package area and the "shelf" in the air handling area under the rear window. Notice the drain hole on the shelf, almost middle page. There is on the other side too. Those are there for a reason. They take a rubber gravity drain and they are usually missing! If yours are missing, you have a huge air leak from the fresh air NOT getting to your engine! Let the welding begin !

I drilled small holes in the rear of the package shelf area to enable me to get the best spot welds on the panel. You can see the holes lined up in the weld through primer.

After about 4.5 hours of welding the firewall and package shelf are welded in. After another 4 hours of fitting the engine compartment pan-

## Here is some information about the Round UP

This is going to be so simple this year. The Friday night cruise downtown reminds us of American Graffiti – many many cars, food, music, it's cool! Then the show on Saturday goes all day to 5pm. Awards are given by the Carthage folks at around 4pm – There will easily be 500 vehicles of all kinds at the show and they will have a lot right in the middle for many Corvairs to be together with a Corvair category for people's choice. Lots of food trucks. Good ones! Probably a pancake breakfast Saturday morning at the firehouse – big event last year that we attended. Yep, it'll be different but those that are saying the roundup is getting a little stale won't be able to say that after Maple Leaf. Nothing Saturday night officially planned. Nothing Sunday. Hotel will have a really good breakfast for us on the mezzanine. They do that everyday and the cost is built in to the room rates!

I hope people register and reserve rooms very soon – I would hate for them to run out of rooms on us. This hotel is the host hotel for the entire event, not just the Corvairs. 😊

The swap meet has been so good that they decided last year to do it on Friday as well as Saturday. It was awesome! They said the traffic for the swap was incredible both days so they will be doing that again.

Thanks Scott – let me know if there are other questions and it's fine to spread this email around if you think it'll help.

Also, [tulsacorvair.com](http://tulsacorvair.com) has the printable registration form right at the top. Only \$15 to register. Hotel info is there and btw, the shirts will be ordered, paid for and delivered right there at the show – No pre-order. Just \$15 registration, a credit card to hold the hotel room and gas in the tank.

GONNA BE GREAT! See ya there! Spread the love.

Marv

### Update
